

You're Invited to Tech Team to Build Sustainable Workforce Development

Orientation: November 7, 2019 | 4:30-5:30PM
Claire T. Carney Library, UMassD

In June, UMassD Junior Chibike Nwodim and Olin College Seniors led the ***Institute's Design-A-Thon*** for the Blue Economy at Innovate Newport with New England leaders of the Blue Economy - from CEOs, to Newport's Mayor and academic institutions. The ***User Design Experience*** shaped the design of the Institute's Sustainable Workforce Development Network. We're eager to build the prototype and BETA test the Network with blue companies and multicultural youth. The BETA community will feature the first Sustainable Workforce Development Network Kiosk.

Learn About An Exciting Opportunity, Special Project for UMassD Students

- Build Prototype with Innovative, Disruptive, Cutting Edge Project
- Build Your Portfolio with Game Changing High Social Impact Tech.

The Sustainable Workforce Development Network is an online ecosystem that builds bridges between young people, educators and blue-green companies, connecting youth to workforce development opportunities to prepare for sustainable career pathways.

The Stone Soup Leadership Institute is a global leader in designing sustainable workforce development initiatives that prepare multicultural youth to become successful in their lives, their communities and our world. Founded in 1997, The Institute has collaborated with business, education, government, and community leaders to develop workforce development initiatives that build bridges with marginalized youth who face high inequities in education, employment and life opportunities.
