

February 11, 2022

I am pleased to submit this letter to enthusiastically acknowledge my support for the Beta Project in partnership with Stone Soup Leadership Institute. *This project is aligned with the goals of our Redwood Environmental Academy of Leadership (REAL) Program.* Stone Soup for a Sustainable World includes and explores life-changing stories of young heroes and features the stories of climate change trailblazers, environmental justice changemakers, educator champions, sustainable business leaders, intergenerational legacy figures, green inventors and entrepreneurs, and emerging island leaders from 38 countries around the world, as well as 32 U.S. cities who are creating sustainable solutions to the global climate crisis. These stories are inspiring and lay the foundation, and provide the curriculum to explore their impact in building a more just, equitable, and sustainable world. This Beta Project will provide invaluable resources to significantly enhance our *REAL Program* and will transform instructional practices, offer initiatives that personalized learning and provide extended learning opportunities for all students in the *Environmental Science program*. We are committed to continuously supporting all aspects of sustainability education here at Redwood High School through this powerful Beta initiative with Stone Soup Leadership Institute and I am excited to submit this letter of support on behalf of Redwood High School.

Sincerely,

*Stephanie Ogden*
